

# SNAP DRIVE

**A REVOLUTIONARY CONVEYOR  
ASSEMBLY SOLUTION THAT  
INSTALLS IN A SNAP!**

**Itoh Denki presents the most amazing breakthrough in  
motorized roller technology ever... the innovative Snap-In-Drive.**

The snap-in roller, along with the snap-in ZPA drive module combines for the easiest, quickest way of implementing motorized rollers into your system. Rollers and cards simply snap into the conveyor frame while the communication, power and control merely plug into the card. This offers true “plug-and-play”.

**Save Installation Costs! • Save Wiring! • Save Component Inventory! • Save Money!**

Let Itoh Denki show you how to  
save using the Snap-In-Drive system.

Intelligent solutions you expect from Itoh Denki
